Course Feedback Report

Total students: 60

Percentage=94.06%

Sl. No.	Feedback Parameters	Scores
1	Is regular and punctual in taking up of classes (Feedback is expected on punctuality of the faculty in taking the classes, whether the faculty comes to class on time and utilises the entire 55 minutes available.)	4.93
2	Demonstrates sound knowledge on the subject (It is expected from the faculty to have a profound knowledge of every topic they teach on each day. The faculty should be able to explain the topics related to the course without any difficulty.)	4.78
3	Provides additional knowledge on the subject beyond syllabus (The faculty need to be updated about the current developments of the course which is being taught. In addition to covering the topics as per course content, The faculty should also to explain the latest developments happening related to the course content but, are beyond the scope of the syllabus.)	4.70
4	Is fair in dealing with students (Here, the unbiased quality of the faculty is evaluated. Faculty are expected to be unbiased in all respects whether awarding attendance, evaluating and awarding marks in CIE, asking questions in class, and support extended to students for more achievements in academic and non-academic activities.)	4.50
5	Creates an atmosphere conducive to learning (Here the faculty is expected to be positive and enthusiastic when teaching. They need to demonstrate that they are not here just for teaching, but as mentor who cares about students. They do not use threats and punishment as means to manage the class.)	4.67
6	Deals effectively with student's behaviour (Here the faculty are assessed about their temperament in dealing with students' behaviour. Faculty need to demonstrate utmost calm and patience to manage different kinds of behaviour by students. They should maintain the dignity of the teaching profession.)	4.75

7	Provides notes that is a good match for the objectives (The faculty are expected to provide the study material that encourages students to make use of the study material and explore different sources to learn more about the course. They need to provide the course material in line with course objectives and outcomes.)	4.85
8	Plans activities that are well differentiated and appreciated by students (In this parameter, the use of teaching aids and tools by the faculty to make the concept clear is assessed. Whether the faculty make use of different facets of teaching and learning process to keep the class lively.)	4.53
9	Welcomes/settles the class appropriately and displays humble but commanding skills (The art of managing the class by the faculty is assessed via this parameter. The faculty need to demonstrate the ability to manage the class in a very friendly but convincing manner without hurting anyone's sentiments.)	4.63
10	Makes objectives if the session/topic explicit to students (The faculty are expected to convince students and make them understand beyond any doubts on the topics taught in the class. They are also expected to convince students about the necessity of learning each of the topics.)	4.72
11	Engages the class with activities that are appropriate and creative (Here the faculty are expected to be creative and at the same time adhere to the relevance of the topic they are teaching. They are not supposed to indulge in irrelevant matters which are not related to the course/topic.)	4.58
12	Encourage them to think (Students must be encouraged think for themselves, and faculty are expected to make students realise their potential and excel in all their endeavours.)	4.78

CO Feedback

Points on scale of 5=4.54

Sl. No.	Description	CO Feedback
1	Apply the knowledge of calculus to solve problems related to polar curves and its applications in determining the bentness of a curve and demonstrate using python.	4.62
2	Outline the notion of partial differentiation to calculate rate of change of multivariate functions and solve problems related to composite functions, Jacobian and demonstrate using python.	4.53
3	Analyze the solution of linear and nonlinear ordinary differential equations and demonstrate the same using python.	4.55

4	Get acquainted and to apply modular arithmetic to computer algorithms and demonstrate using python.	4.47
5	Solve the system of linear equations using matrix theory and compute eigenvalues and eigenvectors and demonstrate using python.	4.54

Observation:

The average faculty feedback obtained for this academic year is 92.07% with lowest=74.21% and highest=98.10%

Action suggested:

As per College Policy, it is expected that every faculty get minimum feedback of 70% in their respective course. Since all faculties have obtained feedback is above 70% it is suggested to the concerned faculty to continue the same good work and improve further.

Observation:

The average faculty feedback obtained for this academic year is 91.81% with lowest=78.31% and highest=100.00%

Action suggested:

As per College Policy, it is expected that every faculty get minimum feedback of 70% in their respective course. Since all faculties have obtained feedback is above 70% it is suggested to the concerned faculty to continue the same good work and improve further.
